

## RoHS Compliance Statement

*(Directive 2011/65/EU as amended by Directive 2015/863/EU)*

Diamond Electronics Ltd acknowledges and complies with the requirements of the European Union's Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU, as amended by Directive (EU) 2015/863 (RoHS 3). This directive restricts the use of specific hazardous substances in electrical and electronic equipment to protect human health and the environment.

As a distributor, Diamond Electronics Ltd does not manufacture or modify products and therefore does not certify RoHS compliance on behalf of original manufacturers. However, all components we supply are sourced from reputable manufacturers who provide declarations of RoHS compliance in line with the directive. Compliance information is obtained directly from these manufacturers and is verified during goods-in or purchasing checks. It is not routinely retained unless required for specific documentation.

The RoHS Directive restricts the following ten substances to the maximum concentration values (MCV) listed below, by weight (w/w) in homogeneous materials:

### Annex II – Restricted Substances under RoHS

<b>Restricted Substance</b>	<b>MCV (% w/w)</b>
Lead (Pb)	0.1
Mercury (Hg)	0.1
Cadmium (Cd)	0.01
Hexavalent Chromium (Cr VI)	0.1
Polybrominated Biphenyls (PBB)	0.1
Polybrominated Diphenyl Ethers (PBDE)	0.1
Bis(2-ethylhexyl) Phthalate (DEHP)	0.1
Butyl Benzyl Phthalate (BBP)	0.1
Dibutyl Phthalate (DBP)	0.1
Diisobutyl Phthalate (DIBP)	0.1

For any questions related to RoHS compliance or to request supporting documentation for specific part numbers, please contact the Diamond Electronics Sales Team.

**Note:** Where Diamond supplies custom products or assemblies under Diamond-generated part numbers, specific compliance certificates may be issued upon request.
